4. FIRST AID MEASURES :

In case of gases evolving from melted resin, move subject to fresh air. Treat

symptomatically.

Skin Contact In case of pellets or powder, wash with water. In case of melted resin, wash affected skin

area and clothing with plenty of soap and water, seek medical advice.

Eye Contact In case of pellets or powder, flush with plenty of water for at least 15 minutes. Seek medical

advice if any dust particles still remain. In case of gases evolving from melted resin of high temperature, flush with plenty of water for at least 15 minutes. Seek medical advice if

necessary.

Ingestion Induce vomiting. Rinse mouth with water. Seek medical advice if necessary.

5. FIRE-FIGHTING MEASURES:

Extinguishing Media Water, foam, dry chemical extinguishing media.

Special Fire-Fighting Procedure Self contained breathing apparatus and turnout gear.

Fire and Explosion Hazards None.

Unusual Fire and Explosion Hazards If exposed to fire, high heat will develop and heavy black smoke

will result. During combustion, carbon monoxide will be produced.

6. ACCIDENTAL RELEASE MEASURES:

Methods for Cleaning Up Recovery if not contaminated or disposal.

Personal Precautions Pellets or powder remained on ground may cause slipping.

Environmental Precautions Gather pellets and powder thoroughly to avoid water pollution.

7. HANDLING AND STORAGE:

Handling Keep away from fire and sources of ignition. Maintain good housekeeping standards to prevent

accumulation of dust. To avoid dust explosion resulting from the existence of static electricity build-up, electrostatics eliminators and grounding such as air transferring pipes, electrically

conductive bag filters and hoppers should be fixed to equipment.

Storage Keep the materials in a cool dry place. Protect from direct sunlight, rain and violent temperature

fluctuation. Store in a fire inhibited area.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION :

Threshold Limit Value Not determined

Ventilation Necessary to exclude dust, fumes and gases.
